ENERGY AND ENVIRONMENTAL ECONOMICS, INC.

San Francisco, CA

Senior Managing Consultant

Gregory Gangelhoff joined E3's Asset Valuation team in 2020. At E3, Greg leads teams to provide transaction support, market research services, and financial analysis for investors, developers, utilities, and resource planning groups. Prior to joining E3, Greg worked in the Power, Utilities, and Energy Infrastructure group in the investment banking division of Bank of America Securities in New York City. Prior to working in finance, Greg was an economist and Presidential Management Fellow at the U.S. Agency for International Development; during this time, he was detailed to the U.S. Department of the Treasury and the U.S. Embassy in Jakarta, Indonesia. Greg is an alumnus of Teach For America.

Recent projects include:

- Buy-side transaction advisory support for an investor client's successful acquisition of a stake in a U.S. electric and gas utility (\$2bn+, announced 2021)
- Market entry strategy support for various developer and investor clients, including geographic strategy for the Pacific Northwest, CAISO, and SERC, and technology strategy for clients considering battery storage development and investment (2021 – 2022)
- Expert financial advisor to New York Power Authority (NYPA) on project that examined opportunities to decarbonize their natural gas-fired power plants in New York City, with a focus on opportunities for battery storage to replace the operations of NYPA's units (2021 – 2022)
- Asset-specific forecasting and commercialization strategy support for pumped storage hydro, battery storage, and wind assets for investor and developer clients (2021 – 2022)
- Sell-side transaction advisory support for a developer client's 1GW+ hybrid solar and battery storage asset, including storage revenue forecasting (launched 2022)
- Strategic advisory support for developer client bidding into Request for Proposals from a U.S. utility: developed revenue requirement model to inform bid negotiations (2022)
- Strategic advisory and market due diligence support for developer client contemplating investment in offshore wind in the Gulf of Mexico (2022)
- Strategic advisory support and policy analysis for multiple clients seeking to validate and calibrate their investment and development strategies following passage of the Inflation Reduction Act and the Infrastructure Investment and Jobs Act (2022)
- Analysis of resource costs and policy impacts on resource costs for utility and resource planning clients, including the California Public Utilities Commission (CPUC) (2022)
- Leads the E3 Asset Valuation training program for new and existing consultants, including training on discounted cash flow modeling and regulated utility financial modeling

BANK OF AMERICA SECURITIES (formerly Bank of America Merrill Lynch)

New York, NY

Investment Banking Associate, Power, Utilities, and Energy Infrastructure

July 2019 – October 2020

- Advised renewable energy and utility clients on over \$1bn in buy-side and sell-side M&A and debt and equity financing; performed extensive financial (valuation, merger, and credit) analyses to advise on potential investment returns

Selected Transaction Experience

- Advised Abu Dhabi Future Energy Company PJSC – Masdar on acquisition of cash equity stake in 1.6 GW North America renewable energy and battery storage portfolio from EDF Renewables (Announced August 2020)
 - Supervised and co-created valuation model; analyzed multiple potential tax equity structures to determine most efficient financing strategy across different scenarios; managed due diligence process across multiple stakeholders
- Advised Pacolet Milliken, LLC on sale of subsidiary Ni Pacolet Milliken Utilities, a regulated water and wastewater utility (Announced August 2020)
 - Supervised and co-created ability-to-pay and valuation analyses; conducted industry research and buyer outreach
- \$34bn of debt and equity financing for Pacific Gas & Electric Corporation (June 2020)
 - Completed due diligence for debt and equity financing transactions as part of Company emergence from Chapter 11 bankruptcy, in collaboration with debt and equity capital markets teams

Investment Banking Summer Associate, Power, Utilities, and Energy Infrastructure June – August 2018

- Supported valuation and financing analyses, due diligence, and created presentation materials

U.S. AGENCY FOR INTERNATIONAL DEVELOPMENT (USAID)

Washington, DC

Economist, Office of Economic Policy

2014 – 2017

- Shaped U.S. Government (USG) strategy in countries representing \$305 million in funding through macroeconomic and microeconomic analysis to diagnose key constraints on economic growth
- Conducted cost-benefit analyses of \$6.5 million in energy and environmental projects
- Developed and taught new annual course on economic analysis for USG stakeholders
- Selected through Presidential Management Fellowship, competitive two-year program

Detail: U.S. Department of the Treasury, Environment and Energy Office

2015 – 2016

- Engaged with G-20 countries and assisted with negotiations as part of portfolio including Fossil Fuel Subsidy Reform, leading to first-ever exchange of subsidy reviews between U.S. and China

Detail: U.S. Department of the State, Embassy Jakarta, Economic Section

2015

- Interviewed Indonesian financial market stakeholders and authored diplomatic cables from Jakarta on Indonesia's current account deficit and tax revenue targets for USG stakeholders
