ENERGY AND ENVIRONMENTAL ECONOMICS, INC.

Boston, MA

Associate

Ms. Danielyan supports E3's Asset Valuation and Markets group. Prior to joining E3, Ms. Danielyan was a Sustainability Intern at Eversource Energy where she supported the utility's decarbonization efforts through data and policy analysis. As a Graduate Consultant for TATA AutoComp Systems in India, she managed client relations and developed strategies to promote company growth. She also worked for the Center for International Private Enterprise (CIPE) as a Program Associate, working on international projects to strengthen business development and economic growth in Eurasia. She holds a B.A. in International Studies with a minor in Economic Development from Earlham College and an M.A. in Law and Diplomacy with a focus on Environmental Policy and Development Economics from the Fletcher School at Tufts University.

EVERSOURCE ENERGY

Boston, MA

Sustainability Intern

June 2022 – May 2023

- Advanced Eversource Energy's decarbonization efforts by assisting the development of science-based targets through analyzing and reviewing grid composition forecasts, climate models, and reporting on emerging environmental regulations in the U.S.
- Supported the development of Eversource's Climate Change Mitigation and Adaptation Plan and reviewed the annual Sustainability Report in line with various corporate reporting standards such as GRI, TCFD and SASB
- Optimized GHG data collection processes by using VBA to enhance existing Excel-based methodologies
- Evaluated and refined emissions data consistent with GHG protocol
- Wrote briefs on carbon markets, emerging sustainability trends to support Eversource's Carbon Neutral by 2030 committees

CLIMATE POLICY LAB, TUFTS UNIVERSITY

Boston, MA

Research Assistant

June 2022 – August 2022

- Researched renewable energy opportunities in Sub-Saharan Africa
- Analyzed and identified implementation gaps in renewable energy policies in Algeria, Nigeria, the Democratic Republic of Congo (DRC), and South Africa

TATA AUTOCOMP SYSTEMS (TACO)

Boston, MA

Graduate Consultant

January 2022 – May 2022

- Managed client relations and a team of four graduate consultants, ensuring timely delivery of a dual-focus project on environmental benchmarking and growth strategy in the EV and Battery sectors
- Proposed and presented a sustainable growth strategy for TACO in the EV and Battery sectors, leading to increased market share and reduced emissions

CENTER FOR INTERNATIONAL PRIVATE ENTERPRISE (CIPE)

Program Associate

Washington, DC
August 2020 – August 2021

- Facilitated four international development projects related to small and medium business development in Central Asia and South Caucasus, including proposal development, project implementation, and project evaluation with the M&E team
- Mentored interns and worked with international field staff at CIPE, providing guidance and support on market and policy analyses to strengthen business associations in Eurasia
